

Dear Community Grocer,

I would like to request that you carry **Somersaults** scrumptious baked snacks in my local store. These crunchy sunflower seed bites include toasted grains and would make an excellent addition to your healthy snacking options. Not to mention, I am here to guarantee a happy customer when you do start stocking **Somersaults** and I'll be sure to tell my friends to visit your store!

The Somersault Life Company is a natural foods company with a passion for wonderful foods made from a few simple ingredients. They are dedicated to delivering snacks that will delight and nourish snackers everywhere, promoting healthy eating and daily activity as a way of life! Sunflower Seeds are the #1 ingredient in **Somersaults** and are the inspiration behind these one-of-a-kind snacks!

Somersaults boast:

- 5g of protein, 3g fiber, and nut-free
- As much protein as almonds with just ½ the fat
- A good source of fiber & vitamin E
- Bold taste and delicious crunch in every bite, with just 150 calories!
- Somersaults offers four flavors: Sea Salt, Cinnamon, Salt & Pepper, and Dutch Cocoa
- Somersaults come in a 6oz re-sealable pouch, which is great for on-the-go snacking for the whole family (family hikes, soccer practice, at the office and at home entertaining too!)

I look forward to purchasing **Somersaults** from your store soon and thank you for your time and consideration in advance.

Sincerely,

A devoted customer and happy healthy customer!
